Delivery Address:

Tank Serial #

Delivery Type – Please Choose One:

☐

Tank Monitoring - Your tank level is reported wirelessly to our office so we can anticipate your propane needs. Deliveries are scheduled by Van De Pol Enterprises, Inc. in an effort to maintain uninterrupted propane service at your residence or business, providing your account is current. We monitor your tank level and deliver as necessary based upon your usage.

☐

Will Call – Van De Pol Enterprises, Inc. will deliver propane only after you request a delivery. We recommend you order a delivery when your tank is approximately 30% full to ensure a timely delivery. Most Will Call deliveries are made within 3-5 business days after you place an order. Weather and other factors may affect delivery times. If you provide us with less than five (5) days' notice that a delivery is needed, we may not be able to meet your schedule. If you do not place your order on time, you may incur additional costs if we are required to perform a leak check. There will be a service fee charged for the "out-of-gas" Leak Test.
